PRESIDENT'S CORNER

Dear SMSHE Membership,

Let me start out by saying that the 2015 outside conditions are starting out much better than they were in 2014 at this time. I recall last year at this time there were numerous days that were well below zero. Glad that 2015 is starting out a little better, at least in regards to the outside air temperature.

I am looking forward to another successful year as your president of SMSHE. Last year SMSHE had many great educational presentations that were put on to help educate our members. We also had many great events like the Vegas Casino Night, the Holiday Luncheon and, of course, the ever popular Annual Golf Outing. All of these events were huge successes in 2014.

2015 started out with our Vegas Casino Night at the Glen Oaks Country Club. This event was a tremendous success due to the involvement of all of you. This event had well over 100 participants and guests and a great time was enjoyed by all.

For 2015 we have many great educational presentations lined up for our members. A couple of the topics for this year:

- CMMS and Why They Fail
- The Integration of UVGI In-Hospital HVAC Systems

SMSHE is also pursuing having a one day educational session for our members to learn about taking the Certified Healthcare Facilities Manager (CHFM) exam. As I receive further information on this. I will be sure to forward to all of you.

Please keep an eye out for emails for our other upcoming educational events for 2015. Also let your fellow healthcare members and peers know what a great organization SMSHE is. As well as the networking and educational benefits that this organization can provide to them to help further their healthcare facilities management careers.

I look forward to seeing all of you at our upcoming events in 2015. Be safe and enjoy all that life has to offer us in the coming years.

Sincerely,

Tim Rowlett CHFM, SMSHE President

Director, Engineering and Operations for JLL@BHS

ASHE Planning Design & Construction Summit “Innovating in Health Care’s Uncharted Territory” San Antonio, TX March 15 – 18, 2015

MAKE CONNECTIONS IN THE FIELD AND LEARN INNOVATIVE STRATEGIES TO BETTER NAVIGATE THE FUTURE TERRAIN OF HEALTH CARE.

Innovation in health facility planning, design and construction starts with creative professionals with diverse perspectives. The PDC Summit brings together senior leaders working in all disciplines of health care planning, design and construction to discover ways to create value for the health care built environment. Important topics to be covered include delivering value to the hospital C-suite; health care regulatory issues; the FGI *Guidelines*; flexibility in health care planning, design and construction; and more. Register online and view the full schedule at www.pdcsummit.org.
